

RESTORE-LITE[®]
TEMPORARY POWER RESTORATION

RESTORE-LITE[®] Technical Bulletin

Solar Installations

SNC Manufacturing's RESTORE-LITE[®] can be used with a customer who has 120/240V service along with solar. SNC recommends leaving the solar equipment disconnected. The RESTORE-LITE[®] unit can run for the entire length of time required. This should not change the way the solar output is hooked up.

THE RESTORE-LITE® PRODUCT LINE IS UNIQUE IN THE INDUSTRY.

LIGHTWEIGHT: RESTORE-LITE® is the lowest weight unit on the market.

- Can be deployed by a single person
- Saves fuel
- Fits in the back of a truck, allowing hitch to still be used

CONVENIENT: RESTORE-LITE® is easy to deploy.

- External circuit breaker gasket is covered and lockable
- Circuit breaker is accessed and reset without contacting the transformer

RUGGED: RESTORE-LITE® built-in durability includes:

- Full gasket weather protection
- Vented for heat expansion
- Stainless and aluminum components

Always use in accordance with your company practices and procedures.
